Recording suspicions of abuse and disclosures

Staff should make an objective record of any observation or disclosure, supported by the nursery manager or Designated Safeguarding Co-ordinator (DSCO). This record should include:

- Child's name
- Child's address
- Age of the child and date of birth
- Date and time of the observation or the disclosure
- Exact words spoken by the child
- Exact position and type of any injuries or marks seen
- Exact observation of any incident including any other witnesses
- Name of the person to whom any concern was reported, with date and time; and the names of any other person present at the time
- Any discussion held with the parent(s) (where deemed appropriate).

These records should be signed by the person reporting this and the manager/DSCO/supervisor, dated and kept in a separate confidential file.

If a child starts to talk to an adult about potential abuse it is important not to promise the child complete confidentiality. This promise cannot be kept. It is vital that the child is allowed to talk openly and disclosure is not forced or words put into the child's mouth. As soon as possible after the disclosure details must be logged accurately.

It may be thought necessary that through discussion with all concerned the matter needs to be raised with the local authority children's social care team and Ofsted, and/or a Common Assessment Framework (CAF) needs to be initiated. Staff involved may be asked to supply details of any information/concerns they have with regard to a child. The nursery expects all members of staff to co-operate with the local authority children's social care, police, and Ofsted in any way necessary to ensure the safety of the children.

We have a named person within the nursery who takes lead responsibility for safeguarding and co-ordinates child protection and welfare issues, known as the Designated Safeguarding Co-ordinator (DSCO). The nursery DSCO liaises with the Local Safeguarding Children Board (LSCB) and the local authority children's social care team, undertakes specific training, including a child protection training course, and receives regular updates to developments within this field.

#### *Informing parents*

Parents are normally the first point of contact. If a suspicion of abuse is recorded, parents are informed at the same time as the report is made, except where the guidance of the LSCB/ local authority children's social care team/police does not allow this. This will usually be the case where the parent or family member is the likely abuser or where a child may be endangered by this disclosure. In these cases the investigating officers will inform parents.

#### *Confidentiality*

All suspicions, enquiries and external investigations are kept confidential and shared only with those who need to know. Any information is shared in line with guidance from the LSCB.

#### *Support to families*

The nursery takes every step in its power to build up trusting and supportive relations among families, staff, students and volunteers within the nursery.

The nursery continues to welcome the child and the family whilst enquiries are being made in relation to abuse in the home situation. Parents and families will be treated with respect in a non-judgmental manner whilst any external investigations are carried out in the best interest of the child.

Confidential records kept on a child are shared with the child's parents or those who have parental responsibility for the child, only if appropriate in line with guidance of the LSCB with the proviso that the care and safety of the child is paramount. We will do all in our power to support and work with the child's family.
