

2c.1 Special Educational Needs and Disability code of practice Procedure

The nursery has regard to the statutory guidance set out in the Special Educational Needs and Disability code of practice (DfE 2015) to identify, assess and make provision for children's special educational needs.

The nursery will undertake a Progress Check of all children at age two in accordance with the Code of Practice. The early years provider will also undertake an assessment at the end of the Early Years Foundation Stage (in the final term of the year in which a child turns 5) to prepare an EYFS Profile of the child.

The Code of Practice recommends that, in addition to the formal checks above, the nursery should adopt a graduated approach to assessment and planning, led and coordinated by a SENCO. Good practice of working together with parents, and the observation and monitoring of children's individual progress, will help identify any child with special educational needs or disability. The nursery has identified a member of staff as a SENCO who will work alongside parents to assess the child's strengths and plan for future support. The SENCO will ensure that appropriate records are kept according to the Code of Practice.

Stage 1

Where a practitioner or SENCO identifies a child with special educational needs, the nursery will assess and record those needs and provide a number of key actions to help the child. As part of this process the nursery will consult with parents and seek any additional information from external professionals. The targets for the child, any teaching strategies or changes to provision are set out in an Individual Education Plan (IEP). The plan will be continually under review in consultation with the child and his/her parent(s). This stage will involve a cycle of assessment, planning and review in increasing detail, with increasing frequency, to identify the best ways of securing and maintaining progress.

Stage 2

This is where a practitioner or SENCO, in consultation with the child's parents, decide external support services are required usually following a review of the IEP. The nursery will share its records on the child with those services so that they can advise on any IEP targets and appropriate strategies to help the child.

Statutory assessment

If the help given through an IEP is not sufficient to enable the child to progress satisfactorily, it may be necessary for the nursery, in consultation with the parents and any external agencies already involved, to request a statutory assessment by the local authority. This may lead to the child receiving an education, health and care plan.
